CHOC

Cleaning and diluting with water

APPLICATIONS

Complete kit for applying and smoothing plasters

- Roll'Enduit® plaster roller: the fiber's high resilience holds the plaster in place without laying it down, delivering it evenly to the substrate.
- Application time divided by 3 - Reduced number of refills - No material wastage - Easy cleaning
- ParfaitLiss'® smoothing blade: for high-speed, large-area work without plaster loss, minimizing sanding work
- Bi-Flex technology: The flexibility of the blade combined with the strength of the profile ensure perfectly even smoothing along the entire length of the blade.
- Alu-Choc® range: Ergonomic handle with aluminum tip to balance the load - Fights wrist fatigue
- Curved blade for easier plastering in the cool of a ceiling or wall cueille
- High-gloss polished finish: plasters stick less to the blade

TECHNICAL DESCRIPTION:

- Consists of :
 - 1 Roll'Enduit® 180 mm
 - 1 ParfaitLiss'® 35 cm
 - 1 Alu-Choc Plaquiste Knife 10 cm
- Recommended coatings: Ready-to-use paste coatings, Airless machine coatings, powder coatings under certain conditions.
- Roll'Enduit® : Black polyamide fibers 18 mm - Hollow polypropylene handle - Zinc-plated shaft Ø 8 mm
- ParfaitLiss'® : 0.3 mm tempered stainless steel flexible blade - Progressive rounded edges - Bi-Flex technology
- Hardened, ground, bright-polished flexible stainless steel blade - 90° edges for corners
- Ergonomic bi-material handle - Aluminium through-tip for tapping
- Developed and manufactured in our factories
